GROUP H

ARTIFICIAL RESPIRATION

On Wednesday, March 4, 1964, Room H started taking series of lessons on "Medical Self Help Training Course." Mrs. Clemens, the head nurse of the health center, is the person responsible for giving us these lessons.

The first lesson was on artificial respiration. After showing us a slide on artificial respiration Mrs. Clemens talked to us about artificial respiration. Mrs. Clemens told us of all the methods used to revive a person the mouth to mouth method is the best. She also told us if it is not possible to use the mouth to mouth method because of swelling or some other reason we may use the back pushing method. Mrs. Clemens demonstrated this method to us telling us to lay the person who is in need of artificial respiration down in any secure spot. First she told us to lay the person on his stomach and have his face laid on his hands. After that we bend down and put our hands just below the arm pits. After getting in the correct position we apply pressure on the person's back allowing the person to exhale. As soon as we finish doing this we slide our hands down and lift up the person's elbows allowing him to inhale. This method may have to be used from fifteen minutes to two hours at a time. Mrs. Clemens also added that before we start to do this we must clear the person's mouth.

After the method was demonstrated to us, all of us tried it on each other, including Mrs. Stokes and Mrs. Churchill who were also present. So far we have taken only one of the nine lessons given to us. Mrs. Clemens said who ever passed the test at the end of the nine lessons will be awarded a certificate. We hope we never have to use artificial respiration but if we do we'll be ready to do our best.

Roslyn Jones

SPRING

Spring is the season of the year between winter and summer. It begins March 21, and lasts till June 21.

Spring is the time of year when life begins again in nature.

Yes! kids...I'm sure you'll enjoy spring at Wrangell Institute because the sun will come out of its secret hiding place, the grass will become green, and most of all we'll have good weather from spring on, (I hope.). But try not to get too much spring fever!

Blanche Jones

OPERETTA

This coming spring some of the students are going to put on an operetta. It is entitled "Cinderella's Slipper." This is going to be an interesting operetta. It will be exciting and it will be fun. I hope the participants and the students will enjoy the operetta.

Robert Adams

RECEIVING LETTERS

During the school year, '63 and '64, at Wrangell Institute we students have been receiving letters from our parents and friends. Those letters made us happy when we heard from our parents or friends. If it were not for them we wouldn't know anything about the things that happened at home while we are away for our education.

Receiving letters is lots of fun to everyone of us. We're expecting and looking forward to more letters to read from home.

Flora Rock

ROOM C

CLASS SURVEY

Room C voted on the people who are best in the 12 things. This is the way they voted:

BOYS

GIRLS

1. Most polite
2. Most friendly
3. Most industrious
4. Best student
5. Best writer
6. Best artist
7. Best reader
8. Most alert
9. Best groomed
10. Best marble player
11. Best basket ball player
12. Best listener

More About

GROUP H

GOING HOME

We will be leaving for home very soon. I suppose everyone is counting the days, hours, minutes, and seconds. Before we know it, this month will be gone and we will start a new fresh month of April.

Going through the boys' dorm I noticed that the calendars are marked with days and number of school days before school will be out.

Probably next month we will pack our clothes, and be ready anytime to be going home.

....Cyril Merculief

LEATHER CRAFTS

Every night after school there is crafts. The students that are interested in making something with leather can go.

Some boys and girls have already made things silkscreening. Others have made belts, pouches, and many other items. Some boys made belts with their names and different designs. Some have finished and they may start on something else so that they may have something to do with their spare time. I enjoy it a lot and I surely wish I had a leather craft kit for myself.

Wrangell Eagle, March 1964

BOOK REVIEWS

Kathleen Korpusik

NELLIE ELY, by Iris Noble (Julian Messner Inc.): The book is about Nellie Ely. She was a writer that answered an editorial for Mr. George Madden, he was an editor of the Pittsburgh Dispatch. Nellie's father was a lawyer. When Nellie was a child she used to scribble all over her school books, stories, poems and so forth. Her father thought that she would become a lawyer, he was, but she had much skill in writing, so she became a reporter.

So this book tells about the "First Woman Reporter, Nellie Ely."

.... Isabel Hopson...

THE CHILDREN OF MEXICO, by Stella Burke (Rand McNally & Co.): The part I liked best of this book is about the famous Aztec calendar. The famous Aztec calendar was made of stone. It had three hundred and sixty-five days marked on it, but it didn't have the extra day marked on it for leap year. It didn't have numbers, it had a sign for each day, a rabbit, a serpent, a dog and so on. The calendar was probably used as a sundial to tell the time of day.

...Thomas Ablowaluk...

ROBINSON CRUSOE, by Daniel Defoe (Scott Foreman & Company): This book tells how Robinson Crusoe went to the sea against his father's wishes. When ever he went to the sea he gets into some sort of trouble. He left home when he was nineteen years old.

Once during his trip from Brazil to Africa he was shipwrecked. His ship sank, his crew had either drown or else got washed to shore. Robinson Crusoe got washed to the shores of some strange island. There on the island he stayed twenty-seven years two months and nineteen days. During his stay on the island he went through many hardships.

I think the book is very interesting and I am sure you would find it interesting too.

...Albert Olanna...

SIX MILE HIKE

A couple of weeks ago, 25 girls and 25 boys went on a six mile hike. We followed the highway past the Institute all the way to the dead end of the road. At the end of the road is a creek. Many students went wading; shoes and all! But they did have fun.

We started out at 1:00 p.m. and got there around 3:30 p.m. A bus was waiting to bring us back from our hike. We were glad we didn't have to walk back.

That night, at the dance, almost everyone who went on the hike was too tired to dance. But they were rosy cheeked and ready for bed when the time came.

EASTER BUNNY'S MESSAGE

It was early when he passed,
Running swiftly through the grass.

As he went he softly spoke
To the flowers as they awoke.

He told the flowers to tell the breeze,
And it whispered to the trees.

The trees in turn informed the birds,
Who flew to sing the happy words.

They carried the message far and near,
Easter! Easter! Easter is here!

Irene D. Thomas... (From the INSTRUCTOR)

Wrangell Eagle, March 1964

WHO'S WHO?

Henrietta Johnson

This month I bring two sisters from the north part of Alaska. They are well known here at Wrangell Institute and I know a lot more people as they go on with their school.

They plan to go on into college and both want to be a clerk typist. Here at the Institute their favorite food is "steak" and at home it is "black muktuk".

They like to play basketball and volleyball and they both are good at playing them.

Their favorite song is "Let the Little Girl Dance". This summer, when they go home from Wrangell, they plan to go to movies, go out with friends, baby sit, and stay home.

WHO ARE THEY?????

GROUP E

TELEPHONE CALL

A few weeks ago I had a telephone call that I didn't expect. It was from my pen pal, Debbie Miner in New Jersey. I went to the Principal's office and answered her call. I also talked to her mother and dad for about five minutes. It was so surprising.

Lottie Sheldon

ACHIEVEMENT TESTS

The next few days and weeks of March are going to be very busy. We have a play to give, and we have Achievement Tests very soon. We are trying very hard in school so we will be ready for the tests. We hope we make it, even if we don't, we will all do our best. We hope others try as hard as we do. Good luck.

Vera Baldwin, Walter Toorak, Martin Inga.

HIKE

On Friday of the long weekend we had a 7 mile hike up to Pat's Creek. We started at 1:00 p.m., and it took us two hours to get up there. When we got there everyone was so happy to see the end of the road that they forgot they were tired. We stayed there for about a half an hour, and then the bus came to pick us up. After we got back to the Institute we went to supper, then got ready for the dance.

Raymond Titus

CONCERT

Some of us got to go into the concert in Wrangell. Marilyn Neeley, as pianist, played for us. She played several different songs, and it lasted about 3 hours. Some of the boys and girls got sleepy before it was over. After the concert we had refreshments upstairs. The pianist gave a few kids her autograph. We hope to see and hear her play again some day.

Terry Tagarook, Wassilie Mute.

CENTERPIECES

Last month we made centerpieces in Room E. They were the heads of Abraham Lincoln and George Washington. We also made valentines. After we finished them the boys took them to

the cafeteria. When they had birthdays they were used on the tables.

Ethel Pungalik

END OF SCHOOL

The end of school is just around the corner, and everyone is getting so excited. We are all so anxious to see our mothers, fathers, sisters, and brothers again. It will be nice to see our friends from home again too. We are all waiting to go home and eat Eskimo food, boy it is good. The time is going very fast for us. We have just a little more than 10 weeks to go. We have so much to do during March that it will be April before we know it. Before we know it we will be waiting for our turn to get on the plane and head for home. We are anxious to go home, but some of us hate to leave Wrangell and our friends that we have here. (I can't wait to ride on a dog team again.)

Alvin Williams, Ethel Segevan, Alvin Lieb, Barbara Cleveland, Innokenty Lestenkof, Irene Susook, James Evans, Laura Kagak.

VALENTINE DANCE

The Valentine's dance was lots of fun. We had the dance on the 15th of February. The dance started at 7 p.m. and lasted until 10 p.m. We had Valentine cookies, juice, and apples for refreshments.

We danced to the records like slow dances, twisting records, and lots more. We also invited the staff members to the dance. Every student was thrilled and happy when Mr. and Mrs. Heflebower and Mr. and Mrs. Dow started to twist. Gee, they really were going to town. Everyone was happy.

The King and Queen were Robert Adams and Henrietta Johnson. The princes and princesses were James Norton, Alice Fields, Myra Vlasoff, and Arnold. They were really happy up on the stage. Larry Evanoff and Anastasia crowned them all. Larry crowned the girls, and I guess he messed up their hair before they got up. Everyone had a good time.

Barbara Cleveland, Tony Susook

STAFF NEWS

GROUP F

Reverend Files is the preacher for the Episcopal Church. He is a very kind man. He comes every Sunday and Tuesday and holds a service. He comes every Friday after school to have a confirmation class for the boys and girls of the Episcopal Church who are over eleven and a half years old.

Contributed by Margie Painter

Mr. and Mrs. Melvin Brown had a new baby born on February 26, 1964. They named her Paula. Mr. Brown is coach at the Institute.

Contributed by Hannah Lott

AROUND THE CAMPUS

GIRLS DORM

Miss Byrd, a new aid in the Girls' Dorm, is a night matron. She works nights and half of the mornings. Miss Byrd has light brown hair, brown eyes, a slender figure, and a high voice. Some girls like her because she is kind; some girls like her for other reasons. I hope she likes working in the girls' dorm.

by Rose Prince

BOYS DORM

Last month the new matrons at the boys' dorm were Mrs. Faller, Mrs. Thrift, and Mrs. Zieske.

Our aid, Mr. Churchill, went to school in New York City.

On Saturday night the house of our aid, Mr. Fykarude, burned down. No one knows how the fire started.

by Frederic Tukrook

CLASS ACTIVITIES

On February 11th the class had a Valentine party. Such games as "If You Love Me, Smile" and "Adam and Eve" were played. Everyone participated with interest and zest. After the games Valentines were delivered including one very sweet one for each student from "Guess Who". We had a very wonderful party.

by Helen Norton

Thursday, in Home Economics class Miss Stephens let us make a devil's food cake, but we did not eat it. Instead, we ate a white cake.

by Natalia Jackson

In our schoolroom we have pictures on the bulletin boards about "Our European Neighbors." They are of people at the beach, sailing on the water, and of the houses they live in. There is a map of the country of Germany and the city of Bonn, capital of West Germany.

Natalia Jackson

On February 28th everyone in the class had a spelling test. There are some students who need to study their spelling to get better grades.

We, also had a social studies test a few weeks ago. Some of the students did a lot better than they did before in their social studies tests. The only way to get good grades is to study. The semester tests are not far away. So let's get down to business!

Lily Neakok

In our classroom we have just finished studying about Germany and its four neighboring countries. Germany is a country divided. West Germany is free with a republican form of government, but East Germany is under the control of the communist government of the U.S.S.R.

We are now studying about the British Isles. They have a mild climate because of the North Atlantic Drift, a warm ocean current. We are enjoying studying about the British Isles.

Florence Kenezuroff

February 23, 1964, we saw a movie about the Apaches and Fort Bowie. The chief of the Apaches was the worst enemy of the white men. He was the last of the Apache tribe to die.

Mischa J. Auliye

ROOM B

THE LIBRARY

I like to go to the library. There are all kinds of books there. Our class goes there every Tuesday. The last time I checked out a book about Chief Black Hawk. It was a good book.

The story started when Chief Black Hawk was just a boy. He wanted to be a chief, and the year passed, and then Chief Black Hawk's father died. One of the soldiers shot Chief Black Hawk's father. Pretty soon the Indians made Black Hawk their chief. Pretty soon Chief Black Hawk got old and he died and the Indians were on peace.

Frank Jones

We go to the library on Tuesday and check out some books. So we have some thing to read. We are not supposed to talk in the library room, because there are some people working in the library room. So we don't want to disturb the people in the library room.

Winnifred Demientieff

We work hard in school. We go to the library on Tuesday and read books.

Mabel Nicholi

I read a story about "The Littlest Star." Susie is a little girl who likes to dance. She goes to a little ballet school near her house. Susie has a big sister her name is Nancy. She goes to a big ballet school in the city. Today Susie's big sister put on her ballet dress. She put on her coat, she put her ballet shoes in a bag.

They went to the station. Nancy got on the train. Susie got on the train right behind her. "Where are we going?" asked the man on the train. "To Miss Smith's Ballet School," said Nancy.

Debbie Deacon

READING

In school I like to read orally. Sometimes I answer some questions. We have questions on the board but some I don't know. I learn most questions in reading. Our stories are real good. Some are about "A Home

for Sally," "The Lost Pumpkin Seed." The best story I like is "The Lost Pumpkin Seed."

Annie Alexie

I like to do reading and do arithmetic in school. My room is B.

Bernice Zaukar

TRIP TO MT. EDGE CUMBE

On Feb. 7, 1964, the Wrangell Eagles left for Mt. Edgecumbe. Seven boys made the trip with Mrs. Brown on a straight flight. The other three boys went with Mr. Brown to Annette then to Ketchikan then finally to Mt. Edgecumbe.

We reached Mt. Edgecumbe about 11 a.m. We went to where we were to stay and after that we went to eat. We were going to have a game that night so we stayed put.

The game that night was quite good, though we could have done better. We just didn't seem to play at all. We lost that night by eleven points.

On the second night, we had our second game we, also, lost that game by eleven points. Just 4 seconds before the game ended, George put the last basket in.

The Wrangell Eagles had a chance to see how Mt. Edgecumbe is, and I think most of us liked it, as for me, I want to go there someday.

On the return trip we went by the ferry. We left about 2:30 in the afternoon. We had nothing to do on the ferry but sit on chairs and look out the window. On the trip we saw several deer. The name of the ferry was the Taku. It was comfortable and everything was in hand all through the trip.

...Reuben Towkjhea Jr.

are four boys and two girls which make it eight in a club. The first thing we did was soak the envelopes to remove the stamps. Then after we dried them out we sorted them by the country that they belonged to. Next we wrote some letters to the foreign country asking for some trades with stamps so we can have some foreign stamps.

...Adam Waska

VALENTINES DANCE

On Feb. 15, 1964, we had a Valentines Dance, the dance lasted from 7:00 till 10:00 p.m. We all had fun at the dance because we got to stay half-hour later than usual. Also, we got to see who was going to be crowned King & Queen.

Robert Adams from Kotzebue was voted King and Henrietta Johnson from St. Michael was voted Queen.

James Norton and Arnold Garner were princes and Myra Vlasoff and Alice Fields were princesses.

We all had fun at the dance and we want to thank the dorm council for decorating the gym for the dance. We also had refreshments.

...Nellie Gallahorn-

STAMP COLLECTORS

Starting last month there has been a new project which is a stamp collection. We started around Jan. 22 or 23. First there were just two boys who started on it, now there

NEW GAME IN P.E.

A new game in P. E. class is called speedball. It is a game of basketball, baseball and hockey combined. This new game is very exciting, because you can-

not pick it off the floor but catch it while bouncing off the floor. There are other rules in the games that make it exciting.
...Henry Landlord

HIKE TO END OF ROAD

Last Saturday we went on a hike to the end of the road, which is five miles. We started about 1:00 p.m. On this hike were twenty five girls and twenty five boys.

Before we reached the end, most of the boys and girls were tired. At the end we went down by the water line and most of the boys and girls ran into the water. At one place there was a place where it was pretty deep, it was a creek. One boy tried to run across as fast as he could and he tripped and fell in and got all wet. He looked like he had gone for a swim with all his clothes on.

Almost everyone was wet or had wet feet, when we started back. We rode back on the bus and that ended our hike.

George Beaver and Robert Nelson

MATH CLASS

For the last couple of weeks we have been reviewing our math problems. We did problems with formulas, fractions, and decimals. Now we are working on percentage problems. We will come back to our Algebra book later on.

...Roger Henry

STUDENTS LEAVE FOR EDGE CUMBE

On Wednesday morning, February 26th. Several students left for Mt. Edgumbe from the Institute. They went over to Mt. Edgumbe to see the doctor for certain medications which were necessary. Some of the students who went are: Violet Charles, Caroline Katongan, Sandra Merculief, Sophie Zakkar, Gertrude Snowball, Jacob Stalker, Robert Omnik.

We hope they will be back soon.

...Katherine Kimoktoak

HEALTH CENTER SCHEDULE

Some of the kids from the boys' and girls' dorms have been going up to health center during the last few weeks. They go up between 8:00 to 8:45 in the morning, but they use to go earlier. They also go there be-

tween 4:00 to 4:15.

The purpose of going up there is to take pills every day, during those hours I think the pills are to do something for our blood.

...Olinka Nicolai

THE DAYS AT WRANGELL

The last few days at Wrangell were nice and sunny. The sun is out nowadays and there is hardly any rain; therefore, it is kind of dusty.

While the sun was shining some of the students who had cameras were out taking pictures around the campus.

It was good to see the sun instead of the cloudy skies and rain.

When the sun was shining we could see far off in a distance where the mountains were. We could also see that they were snow-capped mountains.

I hope there will be more sunny days at Wrangell in the future.

...Jo Ann Abalama

HOW WE CELEBRATE EASTER BACK HOME

Two days before Easter, every women in the village bakes three cakes. They use the same recipe for baking bread, only they add raisins to it. After they are done and cooled off, they start icing the cakes, after that they are kept in small boxes, till the night before Easter.

On Easter Eve at midnight all the cakes are brought to the church. They are placed in front of the altar and are kept there for three days. On the first day of Easter we go to church at 9:00 a.m. and the services last till about 10:00 or 10:30. In church, Russian Easter songs are sung and after the service, each woman that baked a cake takes one to their house. The same routine goes on until the last day; you see we celebrate Easter three days.

Of course, in the afternoon there are games; the men play ball, the kids go Easter-egg-hunting, and there are a lot of other games played. I hope you kids have as much fun as I do at Easter.

...Karen Selanoff

MAP PROJECT

In World Geography, Room G made a map of Alaska for the bulletin board downstairs in the school building.

The map was made of plywood and the foundation is soap powder mixed with water. We waited a few days for the map to dry then painted the map. The mountains were painted brown, the plains green and rivers blue. The ocean was also painted blue.

...Nellie Gallahorn

JOKES

Mr. Curtis- "You know that heat causes an object to expand and cold causes it to contract. Now anyone give me a good example."

Andrew- "Well, in the summer the days are long and in the winter they're short."

Mr. Curtis- "Give me an example of a collective noun."

Norman- "Garbage can."

(Ideas from Joke Book)

...Matthew Iya

Henry, to teacher: "I lost the note you wrote to my father when I fought with a boy who said you're not the prettiest teacher in school."

(Taken from Read Mag.)

...Peter Askoak

PREPARED

A boy and a girl were our driving one evening. They came to a quiet spot on a country lane, and the car stopped. "Out of gas, said the boy."

The girl opened her purse and pulled out a bottle.

"Wow!", said the boy. "A bottle of- what is it?"

"Gasoline," said the girl!

(Taken from a Practical English book)

Wrangell Eagle, March 1964

AROUND SPORTS

A SQUAD DISBANDS AFTER LAST GAME

The A Squad of Wrangell Institute known as the Eagles disbanded after the ir last gamewhich was in Mt. Edgecumbe. The A Squad unlike the B Squad did not enter intramural ball teams.

The intramural ball teams have been going since basketball season started. The teams have constantly been playing each other to see who is the top team or which team will win themost games. The teams are:

	WON	LOST
1. VIKINGS.....	8....	2
2. MALEMUTES.....	7....	3
3. HAWKS.....	5....	5
4. WOLVES.....	5....	5
5. CHILKATS.....	3....	7
6. WARRIORS.....	2....	8

The teams all have played 10 games. so far these games are played every Saturday and sometimes Sunday. The results of these teams will be put in every paper.

BASEBALL SEASON AT WRANGELL INSTITUTE

Baseballs, gloves, bats, balls and everything needed for baseball is being gotten out. The baseball park is not yet ready for baseball. But the baseballs and mitts are being checked to get in shape for baseball. Baseball teams are going to be organized in the near future.

Agnes & Roslyn

MY AMBITION

Roslyn Jones

In the future I would want to be a nurse. As a nurse I would stay in my village to care for the sick. If I don't become a nurse I would most probably stay as I am in my village. Also sometime I intend to learn to fly an airplane.

JoAnn Abalama

My only ambition when I grow up is to be a teacher and travel around the world to teach. I may teach near Bethel, even though I'll be traveling around.

Olinka Nicolai

My ambition or my goal is to become an Air Force jet pilot. I will need at least four years of college. I've made up my mind not to change or move to something else.

Herman Hess

My ambition is to be a stenographer or a stewardess in a jet airplane going from San Francisco to Tokyo.

Dorothy Larionoff

My ambition is to finish high school and then go into nurse's training. After that I expect to work in a big hospital.

Arlene Carlo

My only ambition is to become a practical nurse or a waitress in the near future.

Evelyn Inga

I'd like to finish high school. I'd like to work in an office as a secretary, also.

Doris Oksoktaruk

Wrangell Eagle, March, 1964
